Work History

Automation Engineer – Freelance

Freelance

- Built OneClickPost, a social media automation SaaS that publishes to Facebook, Instagram, LinkedIn, and X with AI-generated captions and scheduled posting.
- Delivered a voice AI appointment booking system using Vapi, n8n, Twilio, and Google Calendar, with call routing and double-booking prevention.
- Built n8n workflows for lead generation, email follow-up, and content automation across multiple clients.
- Handle the full project lifecycle: API integration, OAuth, frontend, and ongoing maintenance.

FRONT END Developer – KitCode

Jan 2025 – Present

- Designed and built responsive interfaces for a live international lottery platform, improving usability across desktop and mobile.
- Translated UI/UX concepts into production-ready frontend components using React, Next.js, and Tailwind CSS.
- Built reusable UI patterns and collaborated through Git and Bitbucket for version control and deployment.

Senior Graphic Designer – Zeinous

Jul 2023 – Jan 2025

- Led branding and visual design across digital and marketing channels, improving brand consistency.
- Built design systems and reusable assets to speed up creative production.
- Mentored junior designers through feedback and workflow guidance.

Graphic Designer – BGK Printing Services

August 2020 – July 2023

- Produced print-ready visuals including brochures, banners, signage, and promotional assets.
- Created digital mockups that helped clients review and approve designs faster.
- Managed revisions to cut production errors and improve turnaround.
