SUMMARY

Front-End Developer and Automation Engineer with 5 years of experience building responsive web applications and AI-powered automation systems. Skilled in translating design systems into production-ready interfaces using React, Next.js, TypeScript, and Tailwind CSS, and in building end-to-end workflow automation with n8n, LLM APIs, and third-party integrations. Strong background in UI/UX design, API development, and remote collaboration with international clients.

SKILLS

Frontend Development: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Responsive Web Design, REST API Integration, Git, Bitbucket

AI & Automation: n8n, Workflow Automation, AI Agents, OpenAI API, Anthropic Claude API, LLM Integration, Webhooks, Vapi (Voice AI), Twilio

Backend & Infrastructure: Go, Node.js, PostgreSQL, Supabase, SQLite, DigitalOcean, Docker, OAuth 2.0

Design: Figma, UI/UX Design, Adobe Illustrator, Adobe Photoshop, Branding, Design Systems

Tools: Jira, Trello, Slack, Zoom, Google Workspace

WORK HISTORY

Front-End Developer – KitCode *Jan 2025 – Present*

- Design and build responsive interfaces for a live international lottery platform, improving usability across desktop and mobile.
- Translate Figma UI/UX designs into production-ready frontend components using React, Next.js, TypeScript, and Tailwind CSS.
- Build reusable UI patterns and permission-based interfaces, and collaborate through Git and Bitbucket for version control and deployment.

Automation Engineer – Freelance (Nulls Collection) *2022 – Present*

- Built OneClickPost, a social media automation SaaS that publishes to Facebook, Instagram, LinkedIn, and X with AI-generated captions and scheduled posting.
- Delivered a voice AI appointment booking system for an international client using Vapi, n8n, Twilio, and Google Calendar, with call routing, timezone handling, and double-booking prevention.
- Built n8n workflows for lead generation, email follow-up, and content automation across multiple clients, self-hosted on DigitalOcean.
- Handle the full project lifecycle: proposals, API integration, OAuth, frontend development, deployment, and ongoing maintenance.

Senior Graphic Designer – Zeinous *Jul 2023 – Jan 2025*

- Led branding and visual design across digital and marketing channels, improving brand consistency.
- Built design systems and reusable assets to speed up creative production.
- Mentored junior designers through feedback and workflow guidance.

Graphic Designer – BGK Printing Services *Aug 2020 – Jul 2023*

- Produced print-ready visuals including brochures, banners, signage, and promotional assets.
- Created digital mockups that helped clients review and approve designs faster.
- Managed revisions to cut production errors and improve turnaround.
